Management Discussion & Analysis

The operating profile benefits from a diversified mix across chronic therapies, respiratory products, generics exports, and institutional markets. Market backdrop is supported by signals such as Cipla Pharma gets US FDA approval for generic Advair; \$5B market opportunity. Cipla Limited is an Indian multinational pharmaceutical company headquartered in Mumbai. Cipla primarily focuses on developing medication to treat respiratory disease, cardiovascular disease, arthritis, diabetes, depression, paediatric and various other medical conditions. Cipla has 47 manufacturing locations across the world and sells its products in 86 countries. It is the third-largest drug producer in India.

Key Risk Factors

- USFDA and global regulatory compliance
- Price erosion in export markets
- Working-capital intensity in pharma distribution
