Management Discussion & Analysis

The operating profile benefits from diversified geographies, R&D-led; product flow, and a mix of domestic branded formulations and export-led generics businesses. Market backdrop is supported by signals such as Dr. Reddy's receives USFDA final approval for gRevlimid (lenalidomide) — \$9B US market. Dr. Reddy's Laboratories Ltd. is an Indian multinational pharmaceutical company based in Hyderabad, with U.S. headquarters in East Brunswick, New Jersey. The company was founded by Kallam Anji Reddy, who previously worked in the mentor institute Indian Drugs and Pharmaceuticals Limited. Dr. Reddy manufactures and markets a wide range of pharmaceuticals in India and overseas. The company produces over 190 medications, 60 active pharmaceutical ingredients (APIs) for drug manufacture, diagnostic kits, critical care, and biotechnology.

Key Risk Factors

- Regulatory inspections and remediation risk
- Price erosion in generics
- R&D; monetization risk
