Total Debt	5,900.00	5,200.00	4,800.00

Management Discussion & Analysis

The Indian healthcare industry is projected to reach \$372 billion by 2026. Apollo's multi-pronged strategy encompasses tertiary care hospitals, pharmacies, primary care clinics, and digital health. Hospital occupancy improved to 68% with case mix shifting towards complex procedures (cardiology, oncology, organ transplantation). Apollo HealthCo (24|7 + pharmacy) contributed 30% of consolidated revenue with improving unit economics. Apollo Hospitals Enterprise Limited is an Indian multinational healthcare group headquartered in Chennai. It is the largest for-profit private hospital network in India, with a network of 71 owned and managed hospitals. Along with the eponymous hospital chain, the company also operates pharmacies, primary care and diagnostic centres, telehealth clinics, and digital healthcare services among others through its subsidiaries.

Key Risk Factors

- Regulatory risk: NPPA drug price controls
- High capex for new hospital commissioning
- Doctor availability and talent retention
- Insurance claim settlement delays
- Geographic concentration in South India (52% revenue)
